## Ryan's Ramblings

Dear parents, grandparents and friends,

I certainly hope that you have all managed to stay warm and dry this week. The rain gauge at home said that we had over 40mm of rain on Wednesday alone.

Our staff made great use of the time on Tuesday to finalise a number of assessments, input these into our system, moderate results and finalise drafts of semester reports. Thank you to our community for supporting our Curriculum Day. I know our staff really appreciated the ability to quarantine time to complete this work.

### I dedicate this newsletter to our beloved Vicki.

When I first met Vicki, I remember being riddled with nervousness and anxiety as I approached the entrance to Dana Street Primary School's Jubilee Gates for the first time, having just been appointed as Acting Principal. Of course, not realising that one could actually enter the smaller side gate next to the larger padlocked one, had me decide to quickly google the school's phone number and call. Who should answer, with her tell-tale warm and caring voice, but Vicki.

"Welcome to Dana Street Primary School, this is Vicki, how may I help you?"

After a quick, open, honest and shameful admission of my inability to locate simple entry points to schools, Vicki emerged from the main building; a wry smile on her face. Maybe it was the casual discussion that followed, or her ability to break the tension, I soon felt lighter and more relaxed.

That feeling of knowing that someone genuinely cares about you, wants to support you and has a heart full of love for the world is something that I grew to really appreciate about Vicki. For the 11 months I have been at Dana Street, it has something that I have experienced every day from her. She greets the kids every morning with a smile and makes sure they have everything they need to learn and thrive. I can even ask Vicki about a child who attended Dana Street in 2005 and Vicki will tell me everything about them. Having worked at a number of schools and having experienced a plethora of working relationships in my time, I can't say that I have met anyone with more care and heart than Vicki.

But, it is now time for Vicki to enjoy this exciting next stage of her life. I know that she will visit us regularly, and she will always have a place here at school. I am sure that our community agrees that we are forever indebted to Vicki for her tireless dedication and commitment to Dana Street and public education. Thirty-five years in the same profession, let alone the same workplace is a phenomenal feat. Congratulations Vicki and thank you, for everything.

Have a great weekend

# Buddies and Mates

Our Buddies and Mates sessions this semester has seen the students work with their house on a number of inclusive and sharing activities. We incorporated "Reconciliation Week" within a session and the students learnt further about the "Lost Generation" and how moving forward what we would like our world to look and feel like. The students came up with some great ideas; equality, inclusiveness, kindness and treating people how you would like to be treated. Much of this work will be up on display by the end of Friday, if anyone would like to take a look.

Buddies and Mates continues to build bonds between different students and teachers across our school and is an important part of our culture at Dana Street.

# 5/6 Newsletter Article

What a jam-packed term it has been in the 5/6 Unit. We have had many exciting events take place. The excursion to Earth Ed and Bio Cats being some of the main highlights!

In Week 5, the 5/6s attended Earth Ed. For the day, students turned into engineers, seismologists and geologists for the day. The 5/6s investigated why, how and where earthquakes occur. This was extremely interesting as they examined the treacherous island Terra Felix for liveability and the influence that earthquakes and tsunamis can have on the different land levels. The tsunamis wave creator was one of the favourites!

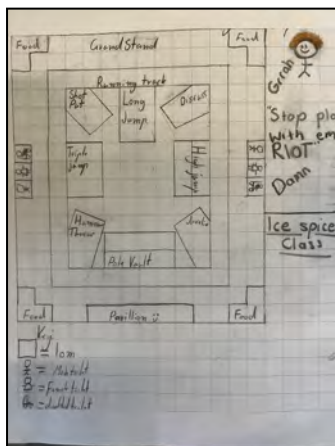

As engineers, students created their very own infrastructure using only a limited amount of resources. This had to stand the test of an earthquake simulator. There were several designs that reached 9.0 on the seismometer! Some true engineers in the making!

Bio Cats is always a long-awaited excursion on the calendar. Students had the opportunity to experience a day in the life of an elite athlete through GPS data tracking and analysis, the skill of handballing and the importance of nutrition and hydration and the benefits that come from sports participation. It was another sensational experience for our grade 5/6 students.

There have been many exciting learning experiences taking place in 5/6. Maths has been a highlight! The 5/6s have been completing an investigation on the 2026 Commonwealth Games. The students have worked on different skills each week and applied it to the investigation tasks. They applied the skills of length, area, perimeter, volume and angles to real world scenarios where they designed a building, an athletics track, a marathon course and a mountain bike track. The creativity and problem solving skills that students have displayed has been superb!

## School Council Profile

### Leith Thomas

#### Why I joined Council:

To get involved with the life of the school and contribute to making it a great place for our kids.

#### What I like about Dana Street Primary School:

There is a fantastic community spirit embedded in Dana Street. We felt welcome from the moment we arrived. That openness and connectedness is important because it creates an environment where our kids can grow into themselves and thrive.

#### What I would like to help Dana Street Primary School achieve:

My focus is on developing a master plan for the school. This is about setting a vision for what we want from our school and developing a road map for achieving it. We're going to be engaging with the school community – from the students and staff to the parents and wider community – all throughout Term 3. However, if you're got any thoughts or want to talk about the future of the school, please don't hesitate to say hello in the yard. I'm often about at drop-off and pick-up and am always up for a chat.
